BILL NO. 1038-C.S.  
ORDINANCE NO. \_\_\_-C.S.

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EUREKA REPEALING AND REPLACING TITLE 15, CHAPTER 150, SECTIONS 150.095 THROUGH 150.097 WITH SECTIONS 150.095 THROUGH 150.100 PERTAINING TO VACANT COMMERCIAL, INDUSTRIAL, AND RESIDENTIAL BUILDINGS, AS FOLLOWS:**

**BE IT ORDAINED BY THE COUNCIL OF THE CITY OF EUREKA:**

**Section 1.**

Title XV, Chapter 150, §§ 150.095, 150.096, and 150.097 are repealed and replaced in full by the following sections 150.095 through 150.100:

**§ 150.095 FINDINGS AND PURPOSE.**

The City Council finds as follows:

Vacant buildings are a major cause and source of blight in residential and nonresidential neighborhoods, especially when the owner of the building fails to actively maintain and manage the building to ensure that it does not become a liability to the neighborhood. Vacant buildings, substandard or unkempt buildings, and long-term vacancies discourage economic development and dampen the appreciation of property values. Vacant buildings are potential fire hazards that can jeopardize the ability of owners of neighboring property to secure or maintain affordable fire insurance. It is the responsibility of property ownership to prevent owned property from becoming a burden to the neighborhood and community and a threat to the public health, safety, or welfare. One vacant building that is not actively maintained and managed can be the cause of spreading blight. Vacant buildings are also a potential source of much needed housing, and the City Council encourages property owners to return vacant buildings to useful purposes whenever possible. It is the purpose and intent of the City Council, through the adoption of this ordinance, to define the responsibilities of owners of, and to establish registration and monitoring programs for, vacant commercial, industrial and residential buildings and properties.

**§ 150.096 DEFINITIONS.**

(A) "Vacant building" means a building or structure which is without a lawful resident or occupant or which is not being put to a lawful commercial, residential or industrial use, and which may be unoccupied and unsecured; unlawfully occupied and/or occupied and secured by boarding or other similar means; unoccupied and a dangerous structure; or unoccupied, with City municipal code or nuisance violations extant.

**§ 150.097 OWNER RESPONSIBILITIES.**

(A) The owner of a vacant building must actively maintain and monitor the building. Active maintenance and monitoring must include:

- (1) Maintenance and appropriate watering and care of landscaping and plant materials;

sigma

- (2) Maintenance of the exterior of the building, including but not limited to, paint and finishes, in good condition;
- (3) Regular removal of all trash, debris, and graffiti;
- (4) Maintenance of the building or structure in continuing compliance with applicable codes and regulations.

(B) No person may allow a building or structure they own or control that is designed for human, industrial, or commercial use or occupancy to stand vacant for more than thirty days unless one of the following applies:

- (1) The building is the subject of an active building permit for repair or rehabilitation, or a permit for demolition, and the owner is progressing diligently to complete the repair, rehabilitation, or demolition, as evidenced by commencement and continuation of permitted work and related inspections;
- (2) The building is being actively maintained and monitored as required by section (A) above, and is actively being offered for sale, lease, or rent.

**§ 150.098 MONITORING PROGRAM – PURPOSE AND OPERATION.**

(A) Because of the potential economic and public health, welfare, and safety problems caused by vacant buildings, the City needs to monitor vacant buildings, so that these buildings do not become attractive nuisances, are not used by trespassers, are properly maintained both inside and out, and do not become a blighting influence in the neighborhood.

(B) There is a substantial cost to the City for monitoring vacant buildings and that cost should be borne by the owners of the vacant buildings.

(C) The Public Works Director or designee is responsible for administering a program for identifying and monitoring the maintenance of all vacant buildings or structures in the City.

(D) The purpose of the monitoring program is:

- (1) To promptly identify buildings that become vacant;
- (2) To order vacant buildings that are open and accessible to be secured against unlawful entry;
- (3) To initiate appropriate proceedings against any vacant building owners to prevent buildings from becoming or remaining substandard or a public nuisance.

(E) Notice of vacant building:

- (2) If the City determines that a building or portion of a building may be classified as a vacant building under this Chapter, the City will ascertain the identity of, and contact the owner or agent of the owner, and advise the owner in writing that the building or structure is vacant and advise as to which measures must be taken to secure and maintain the vacant building.
- (3) If the City determines that a building or structure is vacant it may cause a "Notice of Vacant Building" to be recorded in the chain of the title to the property, which notice will reference the provisions of this Chapter and disclose that administrative penalties and costs may likewise be assessed against the owner and property if the building or structure is allowed to remain in a vacant condition. Upon correction of any unlawful vacancy conditions on the property and satisfaction of any penalties or assessments on the property, the City will record a rescission or cancelation of the Notice of Vacant Building.
- (4) If the owner fails to respond within thirty days of the written notice, the vacant building will constitute a nuisance, and the City may, without further notice, and by any lawful means, abate the nuisance.
- (5) The owner will be liable for the costs incurred by the City for inspections or to secure the building or structure, including costs incurred to ascertain ownership of the property and obtain title information, prepare notices, and any and all administrative costs together with actual labor or material cost or expense incurred by the City to secure the vacant building and otherwise abate the nuisance. If the owner does not reimburse the City within thirty days of being billed therefore, the City will pursue a lien against the property for all the expenses incurred by the City.

(F) Vacant building plan and timetable:

- (vi) If the owner plans on demolishing the building, the date the building is scheduled for demolition, and whether or not all permits have been issued for the demolition;
  - (vii) If the owner plans on returning the building to a lawful occupancy and use, the estimated date for returning the building to a lawful occupancy and use, and a list of improvements necessary to return the vacant building to a lawful occupancy and use, and a timeline for obtaining all necessary permits to affect the listed improvements;
  - (viii) A plan for regular inspection and maintenance of the building during the period of vacancy;
  - (ix) Measures the owner will employ to secure the building to prevent access by trespassers, including, at a minimum, the installation and/or repair and maintenance of adequate windows and doors, as well as at least one of the following:
    - 1. Installation and maintenance of adequate locks for windows and doors;
    - 2. Employment of security officers to the satisfaction of the City;
    - 3. Installation, operation, and monitoring of an electronic security system, which monitors doors and windows by glass breakage or motion sensors, and a method of responding to alarms from the electronic security system, other than sole reliance on the City's Police Department.

(G) Monitoring fee imposed. Any vacant building, as defined in this Chapter will be subject to a quarterly monitoring fee to recover the City's regulatory costs to monitor the status of the vacant building. The monitoring fee will be set by resolution of the City Council. The monitoring fee will be assessed until such time as the building or structure is no longer vacant and will likewise be applicable even when a vacant building plan and timetable are in effect. The monitoring fee will be imposed upon the initial determination that the building is vacant. The fee will thereafter be billed to the owner on a quarterly basis until such time as the building or structure is no longer vacant or boarded.

(H) Code enforcement response fee. In addition to the monthly monitoring fee imposed under this section, the City also establishes a further and separate enforcement response fee for actual costs incurred by the City to respond to or abate substandard or blighted conditions existing in or about the property upon which the vacant building is located. Such costs may include, but not be limited to, personnel costs involved with inspecting or responding to calls for service at the property, personnel costs involved in abating the substandard or blighted conditions existing on the property, costs of any materials or supplies either purchased or supplied by the City in connection with the abatement of any substandard or blighted condition in or about the property, costs of any contracted services, including the costs of materials, supplies, and labor provided by the City's contractor, if any, costs of procuring title or ownership information concerning or related to the property, as well as any other incidental enforcement costs incurred by the City in connection with remedying the substandard or blighted conditions existing on the property. - (3) The administrative penalty may be imposed by the Public Works Director or designee, taking into consideration the severity of the blight and the owner's efforts or lack of efforts to address the conditions of the property.

**(B) Procedure.**

- (1) If the property is specially assessed, the assessment may be collected at the same time and in the same manner as ordinary real property taxes are collected and will be subject to the same penalties and the same procedure and sale as in the case of delinquency as provided for ordinary real property taxes.

Also, clinics would provide services to residents (dental, vision, veterinary, etc.). Currently the development opportunities are on Taylor Way. There appears to be a shortage of building owners in the downtown area interested upgrading for new tenants.

Blue Lake is in an excellent position to promote arts, recreation and entertainment activities with river, birding, dirt biking, Plein Air painting competitions, The Dog House, Jewell Distillery, Del'Arte, Mad River Brewery, Blue Heron, the Logger, etc.) Important to include local businesses to promote and participate in local events.

Live/work units are proposed in the developments on Taylor Way.

As a property owner, it is exceedingly difficult to invest in your building without a potential user. Kent is open to having the City promoting his property.

Julianna Christie on the need to use the 2014 General Plan instead of the 1997 Visioning Plan.
